

CITHAN S

SENIOR 3D ARTIST | 3D GENERALIST | 3D ENVIRONMENT ARTIST

Chennai, Tamil Nadu, India | +91 86676 49638 | cithan.4@gmail.com

Portfolio: cithansrc.github.io | LinkedIn: linkedin.com/in/cithan-s-71271b227/

PROFESSIONAL SUMMARY

Senior 3D Artist with 4+ years of creative industry experience, including 3+ years creating real-time environments, assets and immersive XR/VR experiences, and 1.5 years in graphic design and video editing. Skilled in modeling, texturing, materials, lighting and rendering using Unreal Engine, Unity, Blender and Maya, with experience in medical simulation, technical problem-solving and cross-functional team coordination.

TECHNICAL SKILLS

3D & environments: Modeling, UV mapping, texturing, materials, lighting, rendering, landscape, foliage, scene composition and real-time asset preparation.

Engines & tools: Unreal Engine, Unity (URP/HDRP), Blender, Autodesk Maya, Substance Painter; Movie Render Queue, Sequencer and basic Blueprints.

Immersive & pipelines: VR, AR/MR, 360-degree rendering, medical simulation; FBX, OBJ, GLB/gLTF, USD and Alembic.

2D, video & AI: Photoshop, Illustrator, Lightroom, Premiere Pro, After Effects (basic); Veo, Gemini and ElevenLabs for pre-visualization and content production.

PROFESSIONAL EXPERIENCE

Senior 3D Artist | MediSim VR Private Limited

July 2025 - September 2026 | Chennai, India

- Coordinated and reviewed work across a team of 3-5 spanning 3D art, UI/UX, animation and development; provided final creative and technical review for Unreal Engine and Unity scenes.
- Planned environment and asset requirements, documented project scope and phased timelines, and supported production through final quality checks.
- Resolved cross-engine asset hierarchy compatibility issues using USD; improved 360-degree headset render clarity by increasing Unreal Movie Render Queue output from 4K to 8K.
- Used AI tools for scene and animation pre-visualization, medical training animation and promotional content.

3D Artist | MediSim VR Private Limited

July 2023 - July 2025 | Chennai, India

- Built forest, hospital and laboratory environments for medical VR training in Unreal Engine and Unity, including scene setup, materials, lighting and final rendering.
- Modeled and textured assets with Blender and Substance Painter; integrated assets and prepared Unity scenes using URP and HDRP rendering pipelines.
- Rendered 360-degree panoramic scenes in Unreal Engine and Blender for headset playback; worked with FBX, GLB/gLTF, USD and Alembic asset workflows.

2D Graphics Designer & Video Editor | Femtosoft

August 2021 - January 2023 | Coimbatore, India

- Created web and print graphics, edited and color-corrected photos, and produced marketing and product-promotion videos; streamlined photo and video editing workflows.

EDUCATION

B.Sc. Animation & VFX | Apex Institution for Multimedia, Coimbatore | 2018
